

Personnel roster with names, ages, and cities of origin for the team.

This page contains a structured table with three columns and four rows.

The surrounding text helps the inspector decide the routing path.

Name	Age	City
Alice	30	Beijing
Bob	25	Shanghai
Carol	28	Shenzhen

End of table. This paragraph adds a bit more text density to the page so that the routing decision recognises this as a text-bearing PDF rather than a scanned image, even though it contains a table structure.
